Aryan Thadani

Palantir Certified Foundry Developer

India | 7014089510 | Aryan Thadani | Aryan Thadani | aryanthadani022@gmail.com

Professional Summary

Palantir Certified Foundry Developer with almost two years of hands-on experience in **data integration**, **Ontology modeling**, and **workflow automation**. Builds pipelines in **Pipeline Builder** and **Code Repositories** and turns them into governed **Workshop** and **OSDK** applications that improved reporting efficiency by **30–35%**. Skilled in **React + TypeScript** and **Python**.

Professional Experience

Foundry Developer – Palantir Ecosystem, Vanyar Mar 2026 – Present

- Model **Ontologies** with domain experts for a real-estate client and deliver governed **Workshop** applications on top of them.
- Build pipelines in **Pipeline Builder** and **Code Repositories** with **Actions** and writeback, including a **Salesforce** integration (JWT Bearer flow, RS256).
- Build **TypeScript functions**, **Contour**/**Quiver** analyses and **Foundry Map** views for a healthcare project, plus AI agents with **AIP Chatbot Studio**, **AI FDE** and **AIP Analyst**.

Foundry Developer, MTAS Solutions Jan 2025 – Mar 2026

- Deployed scalable **Foundry architectures** across Manufacturing workflows, converting complex **Ontologies** into intuitive **Workshop** and **OSDK** applications.
- Implemented **AIP workflows** and production-ready AI agents to automate decisions and improve operational efficiency.
- Optimized data models and **Python-based** transforms to reduce pipeline latency and increase refresh reliability.
- Delivered governed Foundry apps while coordinating a 3-member engineering team.

Software Engineer Intern, Rising Academic Network May 2024 – Oct 2024

- Improved backend performance of the **bamb.ai** learning platform (**MongoDB**, **React**, **Node.js**) by **20%** through optimized APIs, **Redis** caching and Python profiling, and added **Jest** tests in Agile sprints.

Web Developer Intern, Open Innovation Lab Jul 2023 – Jan 2024

- Built responsive UIs with **React** and **Tailwind CSS** and **Python** preprocessing, improving UX by **25%** and lifting accessibility and performance through refactoring and automated linting.

Projects

Real Estate Operations Platform (Enterprise Client Project)

- Built inbound and outbound **email integration** to classify emails, map them to leads, properties and deals, and send templated replies with approvals.
- Integrated **Salesforce** with Foundry and wrote changes back through **Actions** and **writeback**.
- Used **AIP Document Intelligence** to extract structured data from documents into the **Ontology**.
- Delivered **Workshop** dashboards, and fixed missing dashboard data by tracing and repairing the pipeline.

Law Firm Data Automation (Client Project)

- Built a **Foundry** pipeline for automated PDF ingestion, extraction, and Ontology mapping, reducing manual effort by **80%** and improving reporting accuracy.

Education

Bachelor of Computer Applications (BCA), Lachoo Memorial College 2020 – 2023

Certifications

Palantir AI Engineer Certification *Oct 2026 · Verify Certificate*

Foundry Certification Exam for Data Engineers *Dec 2025 · Verify Certificate*

Foundry Certification Exam for Application Developers *Sep 2025 · Verify Certificate*

Foundry Certification Exam for Foundry Aware *Sep 2025 · Verify Certificate*

Skills

Palantir Foundry: Ontology Manager, Pipeline Builder, Code Repositories, Workshop, OSDK, Actions, Contour, Quiver, Foundry Map
AI: AIP, AIP Agents, AIP Chatbot Studio, AI FDE, AIP Analyst
Languages / Frameworks: Python, PySpark, TypeScript, React.js, Node.js, Tailwind CSS
Data & Tools: Firebase (Firestore), MongoDB, Redis, Salesforce integration, Git, GitHub, CI/CD, Jest
Core Strengths: Data Modeling, Workflow Automation, Client Collaboration, Front-End Architecture
